SUMMARY REPORT OF SCENE

Crime Scene Investigator's Narrative:

Primary Body Examination:

Investigator arrived at 9:35 am. Investigator was directed through the hallway, and found a dead body, male in his mid 30s, laying on the floor facing the floor with his legs facing the door of Room 204. Visual inspection indicated the victim was wearing light blue floral short-sleeved shirt, dark blue jeans with belt and sneakers. The victim was 219 cm tall. Investigator verified the victim had no signs of life including respiration and heartbeat and pronounced the victim deceased at 9:45 am.

A knife was found stabbing into the abdomen of the body, which was 36 x 1.5 cm; with the stabbing wound of 4 x 5 cm. Blood found on left ankle of the victim's foot and right elbow. Apparent cause of death is penetrating abdominal trauma due to penetration of sharp object.
